Remarks/Market Observations

The following observations were gathered during the actual price monitoring activities:

1. Steady supply of bangus were observed at the monitored retail markets which resulted to a stable price. The price difference in the markets may be caused by the difference in the source areas. The price of bangus sourced from Dagupan was reported to be higher compared to bangus sourced from Bulacan. The lowest price for large bangus (Php 135.00/kg) was recorded at Pasig City Mega Market where there was a large volume of supply.
2. The supply of tilapia also remained steady. The lowest price for medium sized tilapia (Php 80.00/kg) was recorded at Pasig City Mega Market where there was a large volume of supply.
3. Sufficient supply of marine fish commodities were recorded among the monitored retail markets.
4. Supply of local-fresh galunggong continuously increase over the past weeks which resulted to a decrease in selling price. Imported galunggong was only recorded at Guadalupe Public Market, Maypajo Public Market, and Polo Public Market.
5. The lowest price for Surgeon Fish (Labahita) was recorded at Malabon Central Market (Php 120/kg), which is close to the wholesale market. The highest price was recorded at Mandaluyong Public Market (400/kg), which sourced from Primary markets, resulting to a higher price.
6. The price difference for Dalagang Bukid Lapad (Php 480.00/kg and Php 180/kg) recorded at Pasig Mega Market occurred due to differences in size and quality.
7. Top Fishery Commodities in the 7 monitored retail markets in the NCR were sourced mainly from the following areas:
 - a. Bangus – Dagupan
 - b. Tilapia – Batangas
 - c. Local Galunggong - Navotas Fish Port and Malabon Fish Port
 - d. Alumahan – Navotas and Malabon Fish Port

(-) - Price and Volume not available during price monitoring

NA - Source Area not available during price monitoring
