Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Sufficient availability of fresh marine commodities were observed among the monitored retail markets this week. Consequently, for medium-size local-fresh galunggong "lalaki" (<i>Decapterus macrosoma</i>), ample supplies were recorded at the monitored retail markets this week. Mostly of the supplies were sourced from Northern Palawan and Zambales. The recorded prevailing retail price remained at Php200 and Php240/kg this week. Other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) were noted in some of the monitored retail markets this week. Due to the ample supply of local-fresh galunggong this week, only 1 monitored retail market (Caloocan) was observed that have available supplies of imported-frozen galunggong. According to vendors, most of the buyers prefer local than imported. The prevailing retail price of imported-frozen galunggong is recorded at Php190.00/kg. There were other imported-frozen commodities like pompano, salmon mackerel, salmon head & belly, pusit kalawang, and tulingan were still recorded at the monitored markets. The prevailing retail price for bangus remained at Php160 & 180/kg due to the stable and sufficient supplies at the monitored retail markets. According to vendors, most of the buyers still prefer bangus sourced from Pangasinan than bangus sourced from Bulacan due to its premium quality. Supplies of tilapia remained sufficient and stable at the monitored retail markets resulting to a same prevailing retail price at Php130.00/kg this week. Most of the buyers still prefer tilapia sourced from Batangas than sourced from Pampanga due to the commodity's quality (in terms of taste). There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia. According to vendors, low influx of buyers were continuously noted among the monitored retail markets this week. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Also, some vendors were only opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people noted in the retail markets. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ul style="list-style-type: none"> a. Bangus - Bulacan, Pangasinan b. Tilapia - Batangas, Pampanga c. Local Galunggong - Palawan, Quezon, Zambales, & Malabon Fish Ports d. Alumahan - Lucena and Malabon & Navotas Fish Ports 																																	
	<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Scylla serrata</i> or Alimango - male - (Php440-650/kg) - lowest prevailing price of Php440.00/kg were recorded at Malabon Market where supplies were sourced directly from Navotas Fish Port hence, the lower price. Highest prevailing price of Php650.00/kg was noted at Farmers Market where supplies recorded were in good quality, hence, the higher price. <i>Caesio caurulaurea</i> or Dalagang Bukid Bilog - (Php180 & 340/kg) - lowest prevailing price of Php180.00/kg were recorded at Balintawak Market where supplies were sourced directly from Navotas Fish Port hence, the lower price. Highest prevailing price of Php340.00/kg was noted at a secondary market (i.e., Tandang-Sora Market) where supplies are mainly sourced from primary market, hence, the higher price. <i>Glossogobius giurtis</i> or Biya - (Php200 & 500/kg) - lowest prevailing price of Php200.00/kg were recorded at Malabon Market where supplies were sourced directly from Navotas Fish Port hence, the lower price. Highest prevailing price of Php500.00/kg was noted at Pasig Market where supplies recorded were in good quality, hence, the higher price. <i>Metapenaeus ensis</i> or Suwaha - (Php420 & 560/kg) - lowest prevailing price of Php420.00/kg were recorded at Malabon Market where supplies were sourced directly from Malabon Fish Port hence, the lower price. Highest prevailing price of Php560.00/kg was noted at a secondary market (i.e., Guadalupe Market) where supplies are mainly sourced from primary market, hence, the higher price.
