| <p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Adequate displays of fresh marine commodities were observed this week across all monitored retail markets. Relatively, a sufficient availability of local fresh galunggong lakali (<i>Decapterus macrosoma</i>), sourced from Palawan, Romblon, Lucena, Farmers Market (wholesale), Malabon, and Navotas Fish Port. Minimal display of imported-frozen galunggong lakali was recorded this week. In fact, only Maypajo Caloocan Market had a display of medium-sized commodity sourced from Navotas Fish Port. Meanwhile, large-sized were noted in Polo Public Market. In contrast, there were minimal displays of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) noted in the monitored markets this week. Despite, the supply of large-sized alumahan remains evident, sourced from Malabon, Farmers, Navotas, and Lucena. Additionally, there was a display of hasa-hasa (<i>Rastrelliger brachysoma</i>) during the conduct of price monitoring activity. Meanwhile, aquaculture commodities such as bangus (<i>Chanos chanos</i>) and tilapia (<i>Oreochromis niloticus</i>) showed consistent and adequate supply across all monitored markets this week. However, some fish vendors, particularly in Commonwealth market, reported low demand for bangus specifically sourced from Pangasinan. Consumers were hesitant to purchase due to reported fish kills in Bolinao, Pangasinan. Major source areas of the top fishery commodities in the monitored markets are as follows: <ol style="list-style-type: none"> Retail <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong - Malabon Fish Port <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Rastrelliger kanagurta</i> or Alumahan (large) - (Php240.00-360.00/kg) - Similarly, the lowest prevailing price of Php200.00/kg is noted in primary type markets (i.e., Pasig Market), where supplies were of low quality in terms of freshness compared to the supplies observed in Mandaluyong Market, where supplies noted had better quality in terms of freshness. <i>Caranx</i> or Talakitok - (Php300.00, 400.00, 550.00/kg) - The lowest prevailing price of Php300.00/kg was recorded in Malabon Central and Guadalupe Markets, where supplies are smaller in size as compared to the highest recorded price of Php550.00/kg noted in Mega-Q and Farmers Markets. <i>Gerres oyena</i> or Malakapas - (Php200.00-360.00/kg) - The lowest prevailing price of Php200.00/kg is noted in Pasig Market, where supplies were reported to be remaining stocks from previous market days and noted to have smaller sizes. Hence, they exhibit low quality in terms of freshness compared to the supplies in Guadalupe Market, which are noted to have premium quality freshness and larger sizes. Consequently, they command a relatively higher price. <i>Selar crumenophthalmus</i> or Matambaka - (Php150.00, 240.00, 280.00/kg) - Similarly, the lowest prevailing price of Php150.00/kg is noted in Commonwealth Market and Balintawak Market, where supplies were of low quality in terms of freshness compared to the supplies observed in Muñoz and Farmers Market, where supplies had better quality in terms of freshness. <i>Sillago sihama</i> or Asohos - (Php180.00-280.00/kg) - The lowest prevailing price of Php180.00/kg was recorded in Guadalupe Market, where the observed supplies were smaller in size compared to the supplies recorded in Polo Public Market, where larger sizes of the commodity were observed. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| <p>(-) - Price Not Available During Price Monitoring (*) - Actual Price - refers to the prices in the absence of the most frequently occurring value per fresh fishery commodity per sampling size at a given time. NA - Source Area not available during price monitoring</p> <p>Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators Markets 11-16 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators Note: Temporary suspension of the price monitoring activity in the monitored retail market on the scheduled date was due to the participation of the division in Manila Food and Beverages Expo (MAFBEX) on 11-16 June 2024 (Tuesday - Sunday) and simultaneous preparation & conduct of the organized National Fisheries Market Matchina and National Financial Management Forum on June 13 and 14, 2024, respectively, at the World Trade Center, Pasay City.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
