Remarks/Market Observations:

The following observations were gathered from market personnel:

- Sufficient unloading of marine fishery commodities was observed at Navotas Fish Port (wholesale) this week. Among the marine commodities recorded were sap-sap, lapad, bagaong, silinyase, betilla, dalangang bukid, labahita, batalay, tamban, and others. For medium-sized local-fresh galunggong lalaki (*Decapterus macrosoma*), the recorded prevailing wholesale price was Php120.00/kg. These supplies were sourced from Zambales and Northern Palawan. Another variant of galunggong like *D. russelli* (galunggong babae) was also noted.
- Despite the constant unloading of local galunggong variants, availability of imported-frozen galunggong lalaki remained evident at Navotas Fish Port this week. The recorded actual wholesale price was Php120.00 & Php125.00/kg.
- For alumahan, supplies continued to be unpredictable as unloading of the commodity resumed at Navotas Fish Port on June 10, 2024 (Monday). Two (2) brokers were observed with supplies of medium-sized alumahan from Masbate Fish Port with recorded actual wholesale price of Php180.00/kg.
- For aquaculture commodities, adequate supplies were still noted at the Fish Port this week. The recorded prevailing wholesale price of medium-size bangus was at Php120.00/kg mainly sourced from Bulacan and Pangasinan. On the other hand, the prevailing wholesale price of tilapia was at Php100.00/kg sourced from Pampanga and Batangas.

 - Bangus - Bulacan, Pangasinan
 - Tilapia - Batangas
 - Local Galunggong- Zambales and Northern Palawan
 - Alumahan- Masbate
 - Imported galunggong - China and Vietnam
