The following observations were gathered from market personnel and vendors this week:

- Ample availability of fresh-marine commodities was recorded among the monitored retail markets this week. Consequently, for local-fresh galunggong lakai (*Decapterus macrosoma*), adequate availability was still observed across all the monitored retail markets. Said supplies were sourced from Malabon Fish Port, Navotas Fish Port, and Lucena (Quezon). Other local galunggong variants like "balsa" (*Decapterus macarellus*), "babae" (*Decapterus russelli*), and "burot" (*Decapterus kurroides*) were noted in some of the monitored retail markets this week.
- Due to the constant availability of local galunggong variants, minimal quantity of medium to large-sized imported-frozen galunggong lakai was observed. Other imported-frozen commodities like galunggong babae, pompano, salmon head & belly, and pusit kalawang were also noted in most of the monitored markets this week.
- For medium-sized alumahan (*Rastrelliger kanagurta*), sufficient availability was observed at the time of monitoring this week. In fact, majority of the monitored markets were reported with supplies of the commodity. The recorded prevailing retail price was Php200.00/kg. These supplies were mostly sourced from Navotas and Malabon Fish Ports.
- For medium-sized bangus (*Chanos chanos*), supply remained sufficient for the consuming public. However, some markets like Tandang Sora, Trabajo, Quinta, Pasig market and others prefer selling large-size bangus due to higher consumer preference. Said supplies were dominantly sourced from Pangasinan and Bulacan.
- Relatively, for medium-sized tilapia (*Oreochromis niloticus*), continuous supply from Batangas and Pampanga enabled monitored retail markets to have adequate supplies this week. Nonetheless, the price remain to have Php10-30/kg difference between sold-live tilapia and fresh-chilled.
- Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
 - Bangus - Pangasinan, Bulacan
 - Tilapia - Batangas, Pampanga
 - Local Galunggong - Lucena, Navotas & Malabon Fish Ports
 - Alumahan - Navotas & Malabon Fish Port

Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.

- Kappaphycus alvarezii* - Tambahang - (Php40.00-Php220.00) - lowest prevailing price of Php40.00/kg were recorded at Navotas retail market 3,4,5 where supplies were sourced directly from Navotas Fish Port, hence, the lower price. Highest prevailing price of Php220.00/kg was noted at Guadalupe where supplies recorded have higher unloading price, hence, the higher retail price.
- Scylla serrata* - Alimango - (Php480.00-Php640.00) - lowest prevailing price of Php480.00/kg were recorded at Malabon Central Market where supplies were sourced directly from Navotas Fish Port, hence, the lower price. Highest prevailing price of Php640.00/kg was noted at Maypajo Market where supplies recorded have higher unloading price, hence, the higher retail price.
- Amblygaster sirm* - Turay - (Php50.00-Php200.00) - lowest prevailing price of Php480.00/kg were recorded at Malabon Central Market where supplies were sourced directly from Navotas Fish Port, hence, the lower price. Highest prevailing price of Php200.00/kg was noted at Polo Market where supplies recorded have higher unloading price, hence, the higher retail price.
- Gobiopoterus lacustris* - Dulong - (Php180.00-Php360.00) - lowest prevailing price of Php180.00/kg were recorded at Mandaluyong Market where supplies are not in good quality, hence, the lower price. Highest prevailing price of Php360/kg was noted at Polo Market where supplies recorded were in good quality, hence, the higher price.
- Metapenaeus ensis* - Suahe - (Php420.00 - Php560.00) - lowest prevailing price of Php420.00/kg were recorded at Malabon Central Market where supplies were sourced directly from nearby Fish Port (e.g., Malabon Fish Port), hence, the lower price. Highest prevailing price of Php560.00/kg was noted at secondary market Guadalupe Market where supplies are mainly sourced from primary market, hence, the higher price.

(-) - Price and Volume not available during price monitoring
 (*) - Actual Price - refers to the prices in the absence of the most frequently occurring value per fresh fishery commodity per samplina size at a given time.
 NA - Source Area not available during price monitoring
