Remarks/Market Observations:		<p>The following observations were gathered from market personnel and vendors for the month of February:</p> <ol style="list-style-type: none"> Overall, sufficient availability of fresh marine commodities was observed at Navotas Fish Port (wholesale) this month. Unloading of supplies from different provinces such as Northern Palawan, Bataan, Zambales, Quezon Province, Batangas and etc., was observed at Navotas Fish Port. Relatively for local-fresh galunggong (<i>Decapterus macrosoma</i>), sufficient volume of unloading sourced from Northern Palawan, Zambales, Bataan, and Quezon Province was observed at Navotas Fish Port. The prevailing wholesale price of medium-sized galunggong was Php120.00/kg. For imported-frozen galunggong lalaki (<i>D. macrosoma</i>), supplies remained notable at Navotas Fish Port this month. Said supplies were imported from Vietnam and China. Other variant of the commodity like imported-frozen galunggong babae (<i>D. russelli</i>) was also recorded. For alumahan (<i>Rastrelliger kanagurta</i>), minimal supplies were observed at Navotas Fish Port this month, this could syill be due to the unpredictable unloading supplies observed this month. For aquaculture commodities like bangus (<i>Chanos chanos</i>) and tilapia (<i>Oreochromis niloticus</i>), stable and sufficient supplies were still observed at Navotas Fish Port. Top fishery commodities at Navotas Fish Port (wholesale) are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan & Pangasinan Tilapia - Batangas & Pampanga Local-fresh galunggong - Palawan & Zambales Alumahan - Masbate Imported-frozen galunggong - China, Vietnam
