The following observations were gathered from market personnel and vendors this week:

- Overall, minimal display of fresh marine commodities was reported by the fish vendors this week. This might be attributed to the rainy weather condition brought by the Typhoon Agnon affecting Isabela, Aurora, and the Northern portion of Quezon. In addition, fish vendors particularly in Commonwealth Market opted to closed their stalls due to minimal availability and higher wholesale price of marine fishery commodities. In spite this, the display of local fresh galunggong lalaki remained available in all of the monitored markets, sourced from Palawan, Romblon, Lucena, Farmers market (wholesale), Malabon, and Navotas Fish Port. Availability of other galunggong variants (i.e., Balsa and Galunggong babae) were also noted.
- In connection, the supply of imported-frozen galunggong lalaki was still unavailable among the monitored markets this week.
- Minimal supply of medium-sized alumahan (*Rastrelliger kanagurta*) was recorded this week. As recorded, only Trabajo, Commonwealth, Tandang Sora, Mega-Q, Farmers, Balintawak, Muñoz, Kamuning, Galas, Malabon Central, Guadalupe, and Pasig Markets have supplies of medium-sized commodity sourced from Lucena, Farmers market (wholesale), Malabon, and Navotas Fish Port. Meanwhile, display of large-sized alumahan as observed among the monitored markets. Availability of hasa-hasa (other variant of alumahan) was also recorded.
- For bangus and tilapia, adequate supplies were recorded among the monitored markets this week. On the other hand, majority of the vendors were complaining due to the low demand for the commodities forcing them to decrease their prices to ensure that all of stocks will be sold by the end of the day and avoid further losses.
- Major source areas of the top fishery commodities in the monitored markets are as follows:
 - Retail
 - Bangus - Bulacan
 - Tilapia - Batangas
 - Local Galunggong - Navotas Fish Port
 - Imported Galunggong - Navotas Fish Port

General Observations:

Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.

- Penaeus monodon* or Supgo (medium) - (Php450.00-550.00/kg) - Both prevailing prices were recorded in Guadalupe Market, where the lowest prevailing price of Php450.00/kg is noted smaller size compared to the highest recorded price of Php550.00/kg, which have larger sizes and exhibit better quality in terms of freshness.
- Scylla serrata* or Alimango (Male) - (Php440.00-1100.00/kg) - The lowest prevailing price of Php440.00/kg was recorded in Malabon Central Market, where the observed supplies were smaller in size compared to the supplies recorded in Farmers Market, where larger sizes of the commodity were observed.
- Scylla serrata* or Alimango (Female) - (Php550.00-1300.00/kg) - Both prevailing prices were recorded in Farmers Market, where the lowest prevailing price of Php550.00/kg was noted smaller size compared to the highest recorded price of Php1300.00/kg, which have larger sizes, hence the variation in price.
- Rastrelliger kanagurta* or Alumahan (large) - (Php200.00, 300.00, 360.00/kg) - Similarly, the lowest prevailing price of Php200.00/kg is noted in primary type markets (i.e., Commonwealth and Pasig Market), where supplies were of low quality in terms of freshness compared to the supplies observed in Mandaluyong Market, where supplies noted had better quality in terms of freshness.
- Mugil cephalus* or Banak - (Php100.00-280.00/kg) - The lowest prevailing price of Php100.00/kg was recorded in primary type market (i.e., Pasig Mega Market), where supplies are directly sourced from nearby wholesale markets. Meanwhile, the highest recorded price of Php280.00/kg was observed in secondary markets (i.e., Guadalupe), where supplies were sourced only from primary type markets (i.e., Farmers Market).
- Rastrelliger brachysoma* - (Php280.00, 300.00, 400.00/kg) - The lowest prevailing price of Php280.00/kg is noted in Malabon Central Market, Guadalupe Market, and Polo Public Market, where supplies were reported to be remaining stocks from previous market days and noted to have smaller sizes. Hence, they exhibit low quality in terms of freshness compared to the supplies in Commonwealth Market, Kamuning Market, and Galas Market, which are noted to have premium quality freshness and larger sizes. Consequently, they command a relatively higher price.
- Selar* spp. or Matambaka - (Php200.00, 300.00, 320.00/kg) - Similarly, the lowest prevailing price of Php200.00/kg is noted in Pasig Mega Market and Polo Public Market, where supplies were of low quality in terms of freshness compared to the supplies observed in Malabon Central and Mandaluyong Market, where supplies had better quality in terms of freshness.
- Sillago sihama* or Asohos - (Php180.00-280.00/kg) - The lowest prevailing price of Php180.00/kg was recorded in Guadalupe Market, where the observed supplies were smaller in size compared to the supplies recorded in Polo Public Market, where larger sizes of the commodity were observed.

(-) - Price and Volume not available during price monitoring
 (-) - Price Not Available During Price Monitoring
 (*) - Actual Price - refers to the prices in the absence of the most frequently occurring value per fresh fishery commodity per sampling size at a given time.
 NA - Source Area not available during price monitoring
