<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Ample display of fresh-marine commodities were observed this week across all monitored retail markets. In fact some retail vendors in Commonwealth, Trabajo and Mega-Q markets limit their volume of fish to sell just enough to sold-out within the day. Similarly for local fresh galunggong lalaki (<i>Decapterus macrosoma</i>), adequate availability was also recorded this week. Abundant supply was sourced from Palawan, Romblon, Lucena, Farmers market (wholesale), Malabon, and Navotas Fish Port. With sufficient availability of local fresh galunggong lalaki (<i>D. macrosoma</i>) in the monitored retail markets today, the unavailability of imported frozen variants was still observed. An increase in the availability of medium-sized alumahan (<i>Rastrelliger kanugarta</i>) was observed this week. Most of the retail markets today have recorded prevailing prices compared last week. Ample availability was attributed due to the abundant unloading of this commodity from different wholesale markets such as Malabon, Navotas, Lucena and Farmers Still, adequate supplies of bangus and tilapia were recorded among the monitored retail markets today. There is still Php20.00 to Php30.00/kg price difference of tilapia and bangus sourced from Primary and Secondary Market. Major source areas of the top fishery commodities in the monitored markets are as follows: <ol style="list-style-type: none"> Retail <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong - Malabon Fish Port Imported Galunggong - Navotas Fish Port Alumahan - Malabon Fish Port 																									
<p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Kappaphycus alvarezii</i> or Tambalang (Php80.00–Php220.00/kg) – The lowest prevailing price of Php80.00/kg is noted in primary type markets at Navotas Retail Market, where supplies were directly sourced from wholesale markets (i.e., Navotas Fish Port) compared to the supplies observed at Guadalupe Retail Market, where supplies come from numerous middlemen. Hence, it is much more expensive. <i>Scylla serrata</i> or Alimango (Mixed sex) (Php470.00-Php900.00/kg) - The lowest prevailing price of Php470.00/kg is noted in primary type markets (i.e.,Maypajo Caloocan Market), where supplies were of low quality in terms of freshness compared to the supplies observed in Polo Market, where supplies noted had better quality in terms of freshness. <i>Scomberomorus commersoni</i> or Tangigue (Whole) (Php320.00-Php450.00/kg) – Similarly, the lowest prevailing price of Php320.00/kg is noted in primary type markets at Malabon Central Market, where supplies were directly sourced from wholesale markets (i.e., Malabon Fish Port) compared to the supplies observed at Guadalupe Retail Market, where supplies come from numerous middlemen (Secondary type of market). Hence, it is much more expensive. <i>Gerres oyena</i> or Malakapas (Php200.00-Php360.00/kg) - the lowest prevailing price of Php200.00/kg is noted in primary type markets at Malabon Central Market, where supplies were directly sourced from wholesale markets (i.e., Malabon Fish Port) compared to the supplies observed at Guadalupe Retail Market, where supplies come from numerous middlemen (Secondary type of market). Hence, it is much more expensive. <i>Metapenaeus ensis</i> or Suwaha (Php420.00-Php560.00/kg) - Similarly, the lowest prevailing price of Php560.00/kg is noted in primary type markets at Malabon Central Market, where supplies were directly sourced from wholesale markets (i.e., Malabon Fish Port) compared to the supplies observed at Guadalupe Retail Market, where supplies come from numerous middlemen (Secondary type of market). Hence, it is much more expensive. <i>Pterocasto chrysozona</i> or Dalagang Bukid Bilog (Php260.00-Php380.00/kg) Likewise, the lowest prevailing price of Php260.00/kg is noted in primary type markets at Pasig Market, where supplies were directly sourced from wholesale markets (i.e., Malabon Fish Port, Navotas Fish Port) compared to the supplies observed at Tandang Sora Market, where supplies come from numerous middlemen (Secondary type of market). Hence, it is much more expensive. <i>Salmo salar</i> or Atlantic Salmon (Meat sliced) – (Php600.00-Php900.00/kg) - The lowest prevailing price of Php600.00/kg is noted in Malabon Central Market, where supplies were reported to be remaining stocks from previous market days, they exhibit low quality in terms of freshness compared to the supplies in Mandaluyong Market, which are noted to have premium quality freshness. Consequently, they command a relatively higher price. <i>Spratelloides gracilis</i> or Dilis - (Php150.00-Php250.00/kg) - The lowest and highest prevailing price was recorded in Farmers Retail Market, where recorded lowest price are smaller in size as compared to the highest recorded price. 																									
<p>(-) - Price Not Available During Price Monitoring (*) - Actual Price - refers to the prices in the absence of the most frequently occurring value per fresh fishery commodity per sampling size at a given time. NA - Source Area not available during price monitoring</p> <p>Markets 1-10 (Trabajo to Galas) - Monitored by BFAR-FIDSSD (CO) Enumerators Markets 11-16 (Malabon Central to Ulong Valenzuela) - Monitored by BFAR-NCR Enumerators Note: Temporary suspension of the price monitoring activity in the monitored retail market on the scheduled date was due to the participation of the division in Manila Food and Beverages Expo (MAFBEX) on 11-16 June 2024 (Tuesday - Sunday) and simultaneous preparation & conduct of the organized National Fisheries Market Matching and National Financial Management Forum on June 13 and 14, 2024, respectively, at the World Trade Center, Pasay City.</p>
