Remarks/Market Observations:		<p>The following observations were gathered from market personnel and vendors for the month of September:</p> <ol style="list-style-type: none"> Generally, sufficient supplies of fresh marine commodities were observed in Navotas Fish Port (wholesale market) this month. However, minimal volume of fresh marine commodities was recorded on the first and third week of the month due to the occurrence of Typhoon "Enteng" and Tropical Depression "Gener", respectively. On the other hand, sufficient volume of supply was achieved in the second and fourth week due to fisherfolk taking advantage during periods without gale warnings, allowing them to continue fishing and support their livelihoods. Meanwhile for medium-sized local-fresh galunggong-lalaki, supplies continuously available in the wholesale market at Php120.00/kg-Php230.00/kg sourced from different source areas such as Bicol, Northern Palawan, Quezon Province, and Visayan Sea. Continuous unloading of imported-frozen galunggong lalaki (<i>D. macrosoma</i>) and babae (<i>D. russelli</i>), remained notable at Navotas Fish Port this month. Said supplies were reported from China at prevailing wholesale price of Php125.00/kg and Php90.00/kg & Php120.00/kg, respectively. For alumahan (<i>Rastrelliger kanagurta</i>), unpredictable availability was still observed this month. Despite minimal availability recorded on the first three weeks, increased unloading was observed in the fourth week recorded to have prevailing retail price of Php147.00/kg to Php233.00/kg, sourced from Quezon Province, Visayan Sea, and Palawan. For aquaculture commodities bangus (<i>Chanos chanos</i>) and tilapia (<i>Oreochromis niloticus</i>), stable and sufficient supplies were still observed at Navotas Fish Port this month. Top fishery commodities at Navotas Fish Port (wholesale) are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan & Pangasinan Tilapia - Batangas & Pampanga Local-fresh galunggong - Northern Palawan & Zambales Alumahan - Quezon Province Imported-frozen galunggong - China 								
<p>(-) - Price and Volume not available during price monitoring (**) - Actual Wholesale - refers to the prices in the absence of the most frequently occurring value per fresh fishery commodity per sampling size at a given time. NA- Source Area not available during price monitoring</p>
