Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal supplies were noted for fresh marine commodities at the monitored retail markets this week. This may be due to the hampered fishing operation brought by the inclement weather condition caused by Super Typhoon "Julian". Relatively, lesser volume of supplies were also noted for medium-sized local-fresh galunggong "lalaki" (<i>Decapterus macrossoma</i>). As a result, high prevailing retail price were noted at Php300.00/kg this week. Other local galunggong variants like "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>) and "burot" (<i>Decapterus kurroides</i>) were noted but in limited quantities at the monitored retail markets this week. More supplies were noted for imported-frozen galunggong at the monitored retail markets, particularly at Commonwealth, Balintawak and Caloocan Markets this week. Some of the vendors switch to selling imported due to the higher price of local. The prevailing retail price of imported-frozen galunggong was recorded at Php190-260/kg. There were other imported-frozen commodities like pampano, salmon mackerel, salmon head & belly, pusit kalawang, and tulingan were recorded at the monitored markets. For aquaculture commodities such as bangus (<i>Chanos chanos</i>) and tilapia (<i>Oreochromis niloticus</i>), supplies remained sufficient and stable at the monitored retail markets this week. The prevailing retail prices remained the same at Php180.00/kg and Php140.00/kg, respectively. Most of the buyers still prefer bangus sourced from Pangasinan than bangus sourced from Bulacan due to its premium quality. Some buyers still prefer tilapia sourced from Batangas than sourced from Pampanga due to the commodity's quality (in terms of taste). There is still a Php20-30.00/kg price difference between live and fresh-chilled tilapia. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Palawan, Quezon, Romblon, & Malabon Fish Ports Alumahan - Lucena and Malabon & Navotas Fish Ports 																								
	<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Thunnus albacares</i> or Tambakol-Head - (Php100-300/kg) - lowest prevailing price of Php100.00/kg were recorded at Malabon Market where supplies were mostly small-sized. Highest prevailing price of Php300.00/kg were recorded at Commonwealth Market where supplies were mostly large-sized <i>Auxis thazard</i> or Tulingan - (Php160-260/kg) - lowest prevailing price of Php160.00/kg were recorded at Pasig & Balintawak Markets where supplies were sourced directly from Malabon & Navotas Fish Port hence, the lower price. Highest prevailing price of Php260.00/kg was noted at a secondary market (i.e., Tandang-Sora, Marikina Market) where supplies are mainly sourced from primary market, hence, the higher price. <i>Dendrophysa russelli</i> or Alakaak - (Php100-200/kg) - both lowest and highest prevailing price were recorded at Pasig Market. The difference in the price is due to the size of the commodity wherein the recorded lowest price at Php100.00/kg were mostly small-sized and the highest price at Php200.00/kg were mostly large sized. <i>Scarus sp</i> or Mulmol - (Php100-300/kg) - lowest prevailing price of Php100.00/kg were recorded at Navotas Market where supplies were sourced directly from Navotas Fish Port hence, the lower price. Highest prevailing price of Php300.00/kg was noted at a secondary market (i.e., Guadalupe Market) where supplies are mainly sourced from primary market, hence, the higher price.
