<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Compared to previous price monitoring, an increase in the availability of fresh-marine commodities was observed among the monitored retail markets this week. This could be due to the fair weather conditions and unhampered fishing operations. In fact, adequate supply of medium-sized local fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was noted sourced from various areas including Romblon, Lucena, Palawan, Farmers market (wholesale), Malabon, and Navotas Fish Port. On the other hand, some vendor particularly in Balintawak and Maypajo Public Market opt to sell medium to large-sized imported-frozen galunggong-lalaki (<i>D. macrosoma</i>) due to its cheaper wholesale price compared to the local fresh-local variant. For medium-sized alumahan (<i>Rastrelliger kanugarta</i>), a slight increase in availability was also observed among the monitored retail markets this week. For aquaculture commodities bangus and tilapia, adequate availability was observed among the monitored retail markets this week. Stable prices were also recorded for both commodities sourced from Bulacan and Pangasinan (Bangus) and Pampanga and Batangas (tilapia). Major source areas of the top fishery commodities in the monitored markets are as follows: <ul style="list-style-type: none"> a. Retail <ul style="list-style-type: none"> a.1. Bangus - Bulacan a.2. Tilapia - Batangas a.3. Local Galunggong - Malabon Fish Port a.4. Imported Galunggong - Navotas Fish Port a.5. Alumahan - Malabon Fish Port 																								
<p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Sardinella lemuru</i> or Tamban (Php100.00/kg - Php240.00/kg) - The supplies sold at Php 100.00/kg were noted in Guadalupe and Maypajo, where supplies observed were low quality in terms of freshness (i.e., pale color of gills and skin). On the other hand, supplies sold at Php 200.00/kg were observed in Mandaluyong Market and Quinta Market and were noted to have premium quality in terms of freshness, hence the higher price. <i>Rastrelliger kanugarta</i> or Alumahan (medium) (Php260.00 & 380.00/kg) - The supplies sold at Php 260.00/kg were recorded in Balintawak and Malabon Central Market (both primary markets), where supplies were sourced directly from the nearby wholesale market, hence offered relatively lower. This is in comparison to the supplies sold at Php 380.00/kg noted in secondary markets (i.e., Tandang Sora and Marikina), wherein supplies were sourced only from primary markets (i.e., Farmers Market). In addition, prices in these markets are usually higher due to the added investment in logistics, middlemen, and higher stall rental. <i>Decapterus macrosoma</i> or Galunggong Lalaki (medium) (Php260.00- 380.00/kg) - Similarly, the variation in price may be attributed to the types of markets where the commodity is recorded. Specifically, the supplies sold at Php 260.00/kg were noted in Commonwealth and Marikina Public Market (primary markets), where the supplies were sourced from Navotas and Malabon Fish Port. Meanwhile, supplies sold at Php 380.00 kg were recorded in the secondary market (i.e., Trabajo and Tandang Sora) and sourced only in Farmers market (wholesale).
