Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Adequate display of fresh-marine commodities was observed among the monitored retail markets this week. According to the market fish vendors, despite ample availability of captured-marine commodities in the wholesale market such as Navotas and Malabon, they limit their volume of fish display just enough to sell their stocks within the day. Particularly, for medium-sized local-fresh galunggong-lalaki (<i>Decapterus macrossoma</i>), ample availability was still observed among the monitored retail markets today sourced from Navotas Fish Port, Malabon Fish Port, and Farmers market (wholesale) at prevailing retail price of Php260.00/kg. Continuous availability of medium-sized imported-frozen galunggong-lalaki (<i>D. macrossoma</i>) was observed this week particularly in Commonwealth, Muñoz, and Maypajo Caloocan markets with a recorded prevailing retail price of Php190.00-Php240.00/kg sourced primarily from Navotas Fish Port (wholesa. Additionally, other imported commodities such as pompano, salmon mackerel, salmon, pusit kalawang, and tulingan were recorded at the monitored markets. Meanwhile, the supplies of medium-sized tilapia (<i>Oreochromis niloticus</i>) and bangus (<i>Chanos chanos</i>) remained adequate this week. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Palawan, Quezon, Romblon, & Malabon Fish Ports Alumahan - Lucena and Malabon & Navotas Fish Ports 																								
	<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Priacanthus hamrur</i> or Bukawon - ₱Php120.00/kg & Php300.00/kg) - lowest and highest actual price of Php120.00/kg and Php300.00/kg was recorded at Navotas Fish Port Complex 3,4,5 where supplies recorded at Php120.00/kg were mostly small-sized. Highest prevailing price of Php300.00/kg on the other hand were mostly large-sized. <i>Scarus</i> sp. or Mulmol - (Php100.00/kg - Php300.00/kg) - lowest prevailing price at Php100.00/kg were recorded at Navotas Fish Port Complex 3,4,5 where supplies are lower price because it was sourced directly in nearby Fish Port. Highest prevailing price at Php300.00/kg however, recorded at Guadalupe Market, a secondary type of market which have added expenses for middlemen, logistics and higher rental fees, hence demands higher price. <i>Siganus guttatus</i> or Orange Spotted Spinefoot Rabbitfish (Php220.00/kg-Php480.00/kg)—the lowest prevailing price of Php220.00/kg was observed at Tandang Sora Market where supplies are not in good quality, excess from previous market days. Compared to the highest prevailing price of Php480.00/kg recorded at Farmers Market, where supplies are newly unloaded and have premium quality in terms of freshness. 																								
<p>(-) - Price and Volume not available during price monitoring (*) - Actual Price - refers to the prices in the absence of the most frequently occurring value per fresh fishery commodity per sampling size at a given time.
