Remarks/Market Observations: The following observations were gathered from market personnel and vendors this week: 1. More supplies of fresh marine commodities were observed in the monitored retail markets this week compared to the previous weeks, when limited supplies were noted due to the inclement weather brought by Severe Tropical Storm "Kristine." Despite this, high retail prices for these commodities were still reported. Specifically, minimal displays of local galunggong lalaki (<i>Decapterus macrosoma</i>) were recorded, with prevailing retail price of Php 320.00/kg, sourced from Lucena, Malabon, Navotas, Farmers Market (wholesale), and Palawan. 2. An increase in the availability of medium-sized imported frozen galunggong lalaki (<i>D. macrosoma</i>) was noted in the monitored retail markets this week. This could be attributed to the high capital requirements for the local fresh variant. Retail vendors are opting for the imported frozen variant due to its lower price, which is preferred by most consumers and buyers, making it easier for them to sell. 3. Meanwhile, limited availability of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) was observed this week. However, the presence of other variant, (i.e., hasa-hasa) was still noted. 4. Adequate supply of medium-sized bangus was noted in the monitored retail markets this week. The prevailing retail price for this commodity remained stable, sourced from Bulacan and Pangasinan. 5. In contrast, fewer supplies of tilapia were reported by fish vendors starting from last week until this week, as deliveries and harvests from major producing areas like Batangas might have been affected by the effects of Severe Tropical Storm "Kristine." Additionally, no supplies of tilapia from Pampanga were reported in selected markets (e.g., Commonwealth Market), prompting vendors to buy more expensive supplies from Batangas. 6. Major source areas of the top fishery commodities in the monitored markets are as follows: a. Retail a.1. Bangus - Bulacan a.2. Tilapia - Batangas a.3. Local Galunggong - Malabon Fish Port a.4. Imported Galunggong - Navotas Fish Port a.5. Alumahan - Malabon Fish Port General Observations: Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena. 1. <i>Scylla serrata</i> or Alimango - Male (Php 440.00/kg - Php 650.00/kg) - The supplies sold at Php 440.00/kg were observed at Malabon Fish Port, where the supplies were smaller in size. On the other hand, supplies sold at Php 650.00/kg were observed at Pasig Market and were noted to be larger in size, hence the higher price. 2. <i>Decapterus macrosoma</i> or Galunggong Lalaki (large) (Php 200.00/kg - Php 300.00/kg) - The supplies sold at Php 200.00/kg were noted at Polo Public Market, where the supplies were of lower quality in terms of freshness (i.e., pale color of gills and skin). On the other hand, supplies sold at Php 300.00/kg were observed at Marikina Market and were noted to have premium quality in terms of freshness, hence the higher price.
