Remarks/Market Observations: <p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> With the occurrence of Super Typhoon Pepito on November 15-18 that affects the fishing operations on most parts of Luzon as well as in Visayas, minimal availability of fresh-marine commodities was observed this week among the monitored retail markets in Metro Manila. With this, the prevailing retail price of medium-sized local-fresh galunggong lalaki (<i>Decapterus macrossoma</i>) remained high at Php280.00/kg. Relatively, some fish vendors are opting to sell imported frozen galunggong lalaki (<i>D. macrossoma</i>) instead, as the local fresh variety requires higher capital requirement. Consequently, limited and unpredictable availability of alumahan (<i>Rastrelliger kanagurta</i>) was still observed this week among the monitored retail markets due to the occurrence of Typhoon Pepito. For major aquaculture commodities such as bangus and tilapia, stable availability was still observed today despite the occurrence of Super Typhoon Pepito. However, for tilapia, most of the supplies today were sourced primarily from Batangas, as logistics from Pampanga may have been affected by the typhoon. Top fishery commodities in the seventeen (17) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Malabon Fish Ports Alumahan - Farmers Wholesale Market 																																														
			<ol style="list-style-type: none"> <i>Scylla serrata</i> (Female) or Almango - (Php700/kg-Php1200/kg) - The lowest prevailing price of Php700.00/kg were recorded at Marikina Market where supplies were smaller in size compared to the highest prevailing retail price at Php1200/kg recorded at Farmers retail market. <i>Lates calcarifer</i> or Apahap - (Php300.00/kg-Php650.00/kg) - Similarly, lowest prevailing retail price of Php300.00/kg was recorded at Marikina Market where supplies are not in good quality (excess from previous market days). Meanwhile, highest prevailing retail price at Php650.00/kg was recorded at Farmers retail market, where supplies are newly unloaded supplies, hence, demand higher market price. <i>Pterocassio tile</i> or Dalagang Bukid Bilog (Php200.00/kg-Php340.00/kg) - Both highest and lowest-prevailing retail price was recorded this week in Commonwealth market where supplies differ depending on the freshness of supply were supplies at lowest price Php200.00/kg were noted not in good quality (excess from previous market days). While newly unloaded supplies was recorded at highest prevailing retail price of Php340.00/kg. <i>Venerupis</i> sp. or Halaan (Php100.00/kg and Php200.00/kg) - The lowest prevailing retail price of Php100.00/kg was recorded in the primary type of market at Commonwealth market, where supplies were sourced directly from Fish Ports such as Navotas and Malabon, hence lower price. While the lowest prevailing retail price of Php200.00/kg was recorded in secondary type of market at Guadalupe market, where supplies demands higher market price due to added expenses on logistics, middlemen and high stall rental.
