Remarks/Market Observations:

The following observations were gathered from market personnel and vendors this week:

- Minimal but sufficient display of fresh marine commodities was observed at the monitored retail markets this week. This may be attributed to the unfavorable weather condition over the past few days, which hindered fishing operations across the country.
- High prevailing retail price for local-fresh medium-sized galunggong at Php320.00/kg were noted at the monitored retail markets this week due to the limited supplies. Other local galunggong variants, such as "balsa" (*Decapterus macarellus*), "baba" (*Decapterus kurroides*), and "burot" (*Decapterus kurroides*), also noted.
- For imported-frozen galunggong, more volume of supplies were recorded in some of the retail markets (i.e., Trabajo, Commonwealth, Balintawak, Muñoz, and Caloocan) this week. The prevailing retail price was recorded at Php 240.00/kg sourced mainly from Navotas Fish Port. According to vendors, they opted to sell imported-frozen galunggong due to the limited supply of its local variant which resulted to a high retail price. There were other imported frozen commodities, such as pompano, salmon mackerel, salmon head & belly, pusit kalawang, and tulingan also recorded at the monitored markets.
- No changes were noted in the prevailing retail prices of both aquaculture commodities like bangus and tilapia due to the sufficient and stable at the monitored retail markets this week. The prevailing retail prices of medium-sized of the commodity remained at Php160.00/kg and Php130.00/kg, respectively. There are still some buyers whom prefer tilapia sourced from Batangas over that sourced from Pampanga due to its better taste. A Php 20-30.00/kg price difference between live and fresh-chilled tilapia were noted this week.
- Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
 - Bangus - Bulacan, Pangasinan
 - Tilapia - Batangas, Pampanga
 - Local Galunggong - Navotas & Malabon Fish Port
 - Alumahan - Lucena and Malabon & Navotas Fish Ports

	<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <p>1. <i>Scylla serrata</i> (Alimango-Female) – Php 700-1200/kg- The lowest prevailing price of Php 700.00/kg was recorded at Marikina Market, where supplies were mostly small to medium-sized, hence the lower price. The highest prevailing price of Php 1200.00/kg was noted at Farmers Market, where large-sized supplies were recorded, hence the higher price.</p> <p>2. <i>Uroteuthis bartschi</i> (Pusit Lapis) – Php 180-450/kg- The lowest prevailing price of Php 180.00/kg was recorded at Guadalupe Market, where supplies were not in good quality and were stocks from previous market days. The highest prevailing price of Php 450.00/kg was noted at a secondary market (i.e., Kamuning Market), where supplies are primarily sourced from the primary market and were in good quality, hence the higher price.</p> <p>3. <i>Pseudorhombus sp.</i> (Dapa) – Php 380-480/kg- both lowest and highest prevailing price were recorded at Farmers Market. The difference in the price is due to the size of the commodity wherein the recorded lowest price at Php380.00/kg were mostly small-sized and the highest price at Php480.00/kg were mostly large sized.</p> <p>4. <i>Siganus sp.</i> (Danggit) – Php 250-400/kg- both lowest and highest prevailing price were recorded at Guadalupe Market. The difference in the price is due to the size of the commodity wherein the recorded lowest price at Php250.00/kg were mostly small-sized and the highest price at Php400.00/kg were mostly large sized.</p>
