Remarks/Market Observations:	<p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>A minimal display of fresh marine commodities was still observed this week in the monitored retail markets following the New Year celebration. Notably, some retail vendors remained closed, possibly still on vacation. Consequently, the availability of medium-sized galunggong-lalaki (<i>Decapterus macrosoma</i>) remained limited, with the prevailing retail price at Php 320.00/kg recorded at secondary markets (i.e., Tandang Sora and Trabajo), with supplies sourced primarily from the Malabon Fish Port.</li> <li>In spite, a continuous availability of medium-sized imported-frozen galunggong-lalaki (<i>D. macrosoma</i>) was still observed in the monitored market this week, with supplies were sourced majority from Navotas Fish Port.</li> <li>Likewise, limited display of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) was still observed among the monitored retail markets this week. The recorded prevailing retail price was at Php360.00/kg, derived from the markets of Tandang Sora and Marikina markets, sourced from Farmers market (wholesale), Lucena, Navotas, and Malabon Fish Port.</li> <li>On the contrary, a stable supply of bangus and tilapia was recorded in the monitored markets this week. For medium-sized bangus (<i>Chanos chanos</i>), the prevailing retail price was Php180.00/kg, primarily sourced from Bulacan. Similarly, for medium-sized tilapia (<i>Oreochromis niloticus</i>), the prevailing retail price remained at Php130.00/kg, with supplies sourced from Pampanga and Batangas.</li> <li>Major source areas of the top fishery commodities in the monitored markets are as follows: <ol style="list-style-type: none"> <li>Retail <ol style="list-style-type: none"> <li>Bangus - Bulacan</li> <li>Tilapia - Batangas</li> <li>Local Galunggong - Malabon Fish Port</li> <li>Imported Galunggong - Navotas Fish Port</li> <li>Alumahan - Malabon Fish Port</li> </ol> </li> </ol> </li> </ol>																															
	<p><b>General Observations:</b></p> <p><b>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</b></p> <p>1. <i>Sphyraena</i> spp. or Torsilyo - Male (Php 200.00/kg - Php 360.00/kg) - The supplies sold at Php 200.00 per kilogram were observed at Pasig Market, where the commodity were smaller in size. In contrast, supplies sold at Php 360.00 per kilogram were observed at Mandaluyong Market, with larger-sized of the commodity, hence the higher price.</p>
