Remarks/Market Observations: The following observations were gathered from market personnel and vendors this week: 1. Supply of fresh marine commodities remain limited at the monitored retail markets this week. This have begun with the onset of the "ber" months, where cooler weather is typically experienced, along with the advent of typhoons that directly affect the fishing activity and the supply of fish to various fish ports and retails markets. As a result, the prices remained high this week. 2. For local-fresh medium-sized galunggong, limited supplies were noted in all monitored retail markets this week. This resulted in a higher prevailing retail price of Php 280.00/kg this week. There were other local galunggong variants, such as "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>), and "burot" (<i>Decapterus kurroides</i>), also noted. 3. More supplies of imported-frozen galunggong were recorded in some retail markets (i.e., Trabajo, Commonwealth, Balintawak, Muñoz, Kamuning, Galas, and Caloocan) this week. This may be due to the minimal supply of local-fresh galunggong. The prevailing retail price of medium-sized of the commodity was recorded at Php 240.00/kg. Some vendors began selling imported galunggong due to the higher price of local galunggong at various fish ports. There were other imported frozen commodities, such as pampano, salmon mackerel, salmon head & belly, pusit kalawang, and tulingan also recorded at the monitored markets. 4. For aquaculture commodities like bangus and tilapia, same prevailing retail prices were noted as supplies remained sufficient and stable at the monitored retail markets this week. The prevailing retail prices of medium-sized of the commodity remained at Php180.00/kg and Php130.00/kg, respectively. There are still some buyers whom prefer tilapia sourced from Batangas over that sourced from Pampanga due to its better taste. A Php 20-30.00/kg price difference between live and fresh-chilled tilapia were noted this week. 5. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: a. Bangus - Bulacan, Pangasinan b. Tilapia - Batangas, Pampanga c. Local Galunggong - Navotas & Malabon Fish Port d. Alumahan - Lucena and Malabon & Navotas Fish Ports																									
			Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena. 1. <i>Scylla serrata</i> (Alimango-Female) – Php 700-1200/kg- The lowest prevailing price of Php 700.00/kg was recorded at Marikina Market, where supplies were mostly small to medium-sized, hence the lower price. The highest prevailing price of Php 1200.00/kg was noted at Farmers Market, where large-sized supplies were recorded, hence the higher price. 2. <i>Decapterus macrosoma</i> (Galunggong Lalake) – Php 150-280/kg- The lowest prevailing price of Php 150.00/kg was recorded at MaypaJo Market, where supplies were sourced directly from Malabon Fish Port, hence the lower price. The highest prevailing price of Php 280.00/kg was noted at a secondary market (i.e., Mandaluyong Market), where supplies are primarily sourced from the primary market, hence the higher price. 3. <i>Decapterus russelli</i> (Galunggong Babae) - imported – Php 130-300/kg- The lowest prevailing price of Php 130.00/kg was recorded at Malabon Market, where supplies were sourced directly from Malabon Fish Port, hence the lower price. The highest prevailing price of Php 300.00/kg was noted at a secondary market (i.e., Mandaluyong Market), where supplies are primarily sourced from the primary market, hence the higher price. 4. <i>Scarus sp.</i> (Mulmol) – Php 160-300/kg- The lowest prevailing price of Php 160.00/kg was recorded at Pasig Market, where supplies were sourced directly from Malabon Fish Port, hence the lower price. The highest prevailing price of Php 300.00/kg was noted at a secondary market (i.e., Guadalupe Market), where supplies are primarily sourced from the primary market, hence the higher price. 5. <i>Parastromateus niger</i> (Pompano Itim) – Php 250-380/kg- The lowest prevailing price of Php 250.00/kg was recorded at Malabon Market, where supplies were sourced directly from Malabon Fish Port, hence the lower price. The highest prevailing price of Php 380.00/kg was noted at a secondary market (i.e., Guadalupe Market), where supplies are primarily sourced from the primary market, hence the higher price.
