Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Generally, minimal displays of fresh marine commodities were observed in the monitored retail markets this week. This can be attributed to the cold weather brought about by the Northeast Monsoon affecting Northern and Central Luzon. Additionally, fish vendors continued to purchase only small quantities of fish due to high wholesale prices and low demand in the monitored markets. Relatively limited supplies of medium-sized local fresh galunggong laki (<i>Decapterus macrossoma</i>) were recorded in the majority of the monitored markets, despite the lifting of the closed fishing season for the commodity in Northern Palawan on 1 February 2025. Nevertheless, supplies of other variants (i.e., Balsa and Burot) were reported this week. As a result, supplies of imported frozen galunggong laki (<i>D. macrossoma</i>) remain evident in the monitored markets, as vendors opted to buy the commodity as a substitute for the local variant. The recorded prevailing retail price was Php 280.00/kg, with supplies predominantly sourced from Navotas Fish Port. Limited supplies of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) were noted in the monitored markets this week, as the majority of available supplies consisted of larger sizes, with a prevailing retail price of Php 360.00/kg. These supplies were predominantly sourced from Malabon Fish Port. Supplies of other variants, such as hasa-hasa (<i>Rastrelliger brachysoma</i>), were also recorded. In contrast, adequate supplies of bangus and tilapia were noted this week in the monitored markets. However, no supplies of small to medium-sized "pandaing na bangus" (3-5 pcs/kg) were reported in selected markets such as Trabajo and Tandang Sora, as the majority of supplies were larger sizes (1-2 pcs/kg), sourced from Pangasinan and Bulacan. Meanwhile, the majority of the available supplies of medium-sized tilapia (<i>Oreochromis niloticus</i>) noted this week, particularly in Commonwealth Market, were sourced from Pampanga. Vendors preferred these sources due to their cheaper wholesale price and smaller sizes, which has a higher patronage among consumers. Major source areas of the top fishery commodities in the monitored markets are as follows: <ol style="list-style-type: none"> Retail <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong - Malabon Fish Port Imported Galunggong - Navotas Fish Port Alumahan - Malabon Fish Port 																												
	<p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Scylla serrata</i> or Alimango - Male (Php 600.00/kg - Php 1300.00/kg) - The supplies sold at Php 600.00 per kilogram were observed at Pasig market, where the commodity were smaller in size. In contrast, supplies sold at Php 1300.00 per kilogram were observed at Farmers Market, with larger-sized of the commodity, hence the higher price. <i>Scylla serrata</i> or Alimango - Female (Php 700.00/kg - Php 850.00/kg) - Similarly, the supplies sold at Php 700.00 per kilogram were observed at Marikina Market, where the commodity were reported to be smaller in size. In contrast, supplies sold at Php 850.00 per kilogram were observed at Farmers market, with larger-sized of the commodity, hence the higher price.
