Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal volume of supplies for fresh marine commodities were observed at the monitored retail markets this week. This may be attributed to the cold weather experienced due to "Amihan" (Northeast monsoon) and the presence of full moon last 14 January 2025, which affects the fishing operations. Relatively, for medium-sized local-fresh galunggong, supplies remained limited at the monitored retail markets this week. According to vendors, this may be due to the closed fishing season at Northern Palawan, which is a major source area. However, there were other local galunggong variants, such as "balsa" (<i>Decapterus macarellus</i>), "babae" (<i>Decapterus russelli</i>), and "burot" (<i>Decapterus kurroides</i>) also noted. More supplies of imported-frozen galunggong were recorded in most of the retail markets this week. The prevailing retail price was recorded at Php 240, 300, and 320/kg sourced mainly from Navotas Fish Port. Increased in the supplies of imported-frozen commodities were observed this week. Most of the vendors opted to sell imported-frozen commodities as supplies of fresh marine commodities remained minimal. Other imported frozen commodities, such as pampano, salmon mackerel, chabeta, salmon head & belly, pusit kalawang, alumahan, and tulingan also recorded at the monitored markets. For bangus and tilapia, same prevailing retail prices were recorded from last week due to the sufficient and stable supply at the monitored retail markets this week. The prevailing retail prices remained at Php180.00/kg and Php130, 140, 160/kg, respectively. Most of the buyers still prefer tilapia sourced from Batangas over than sourced from Pampanga due to its better quality. A Php 20-30.00/kg price difference between live and fresh-chilled tilapia were noted this week. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ul style="list-style-type: none"> a. Bangus - Bulacan, Pangasinan b. Tilapia - Batangas, Pampanga c. Local Galunggong - Navotas & Malabon Fish Port d. Alumahan - Lucena and Malabon & Navotas Fish Ports 																							
	<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Scylla serrata</i> (Alimango-Male) – Php 400-620/kg- The lowest prevailing price of Php 400.00/kg was recorded at Malabon Market, where supplies were sourced directly from Malabon Fish Port, hence the lower price. The highest prevailing price of Php 620.00/kg was noted at a secondary market (i.e., Marikina Market), where supplies are primarily sourced from the primary market, hence the higher price. <i>Urotheuthis bartschi</i> (Pusit Lapis) – Php 180-550/kg- The lowest prevailing price of Php 180.00/kg was recorded at Guadalupe Market, where supplies were not in good quality and were stocks from previous market days. The highest prevailing price of Php 550.00/kg was noted at a secondary market (i.e., Galas Market), where supplies are primarily sourced from the primary market and were in good quality, hence the higher price. <i>Arius manillensis</i> (Kanduli) – Php 140-360/kg- The lowest prevailing price of Php 140.00/kg was recorded at Malabon Market, where supplies were sourced directly from Malabon Fish Port, hence the lower price. The highest prevailing price of Php 360.00/kg was noted at a secondary market (i.e., Mandaluyong Market), where supplies are primarily sourced from the primary market, hence the higher price.
