Remarks/Market Observations:	<p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>Overall, the observed supply of marine fishery commodities in the monitored markets remains limited this week. This is likely because vendors opted to purchase smaller quantities of fish due to high wholesale prices. More specifically, some stalls in Commonwealth market were observed closed due to low demand and poor sales among buyers/consumers, and higher capital requirements. In addition, the cold weather brought by the Northeast Monsoon affecting parts of Luzon and the rainy weather brought by the shearline in the eastern section of the Visayas continued to brought impact on the regular fishing activities. Meanwhile, there continues to be no supply of local fresh galunggong lalaki (<i>Decapterus macrasona</i>) in majority of the monitored markets such as Quinta, Commonwealth, Mega-Q, Farmers, Balintawak, Muñoz, Kamuning, Galas, Navotas Fish Port (monitored retail markets), and Guadalupe. However, other varieties such as Balsa, Galunggong babae, and Burot were available this week.</li> <li>On the other hand, due to limited supplies of the local fresh variant, a continuous availability of medium-sized imported frozen galunggong (<i>D. macrasona</i>) was observed in the monitored market this week, with the majority of supplies sourced from Navotas Fish Port.</li> <li>Similarly, minimal display of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) was noted among the monitored retail markets this week.
